

For Immediate Release

EVPL's Business Central has resources for job seekers, employees, and small business owners

Evansville, IN, September 17, 2020 – To assist the job seekers and small business owners of the community, the Evansville Vanderburgh Public Library has established Business Central.

EVPL's Business Central is a hub, both digital and physical, of resources for those looking to further their career, improve skills, start a new business, and more.

“EVPL's Business Central is ready to you with your career or your business,” EVPL CEO-Director Scott Kinney said. “We have the tools and resources available to help everyone from those beginning their career to veteran business owners.”

Knowledgeable staff can help guide library users through available resources to build a resume, practice interview skills, and get assistance with job searching. To navigate how to start a small business, EVPL librarians can assist with accessing information on bookkeeping, financing, and small business planning.

For those who are in need of aid, EVPL's Business Central has curated resources to receive local, state, and federal assistance.

The Evansville Vanderburgh Public Library has served our community for more than a century. With eight locations throughout Vanderburgh County, immediate access to hundreds of thousands of digital resources, and a dedicated team of library professionals, EVPL strives to create opportunities for you to discover, explore, and connect with your library.
