**Preservation Studio users should be sure to bring portable flash storage to transport their digitized projects, as online storage platforms and email messages sometimes have storage limits. Flash drives or SD cards of *at least* 16 GB (gigabytes) in size are recommended.**

Example SD card (not miniSD or microSD):

Example USB flash drives or jump drives:

SD cards and USB drives can be purchased at many electronics and office supply stores. These are not available for purchase at the library.
